STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

MISCELLANEOUS.

COULDN'T AFFORD IT.

Made Honest by Business Principles a Druggist Tells the Square Truth.

"Now, my friend, let's be perfectly frank and candid about this matter," the druggist said, placing both elbows on his plated show-case and looking his customer fairly in the eye. You have a lame back and want a plaster to put on it. You don't know me, and judging of human nature as it runs in business, you are afraid I'll humbug you in some way. You may think it an odd statement, but I can't afford to cheat you. Even if I did I haven't the means.

"That's curious. (Oh, my back! I'll take a chair, I guess.) Don't you keep plasters?"

"Oh, yes, one or two kinds. Once I had shelves full of them—every sort that were ever invented to gull the ignorant and make money for imitators. But I sifted 'em out one by one, and now sell

BENSON'S CAPCINE POROUS PLASTERS

Principally. They always give satisfaction, and in the end it pays me to sell them in preference to all others."

"Haven't you Allcock's?"

"Yes, but my customers and myself prefer Benson's Capcine—which are quick as electricity, safe as Government bonds and sure as the law of gravitation. The doctors order them, and what is more to the point, I have never heard a complaint from any one who has used them. You can go elsewhere—If your back will bear you out in the operation—and get another and a cheaper plaster, but—"

"Don't talk to me about the money," broke in the comfort-seeking stranger, with some heat. "What's 10 or 15 cents to getting rid of this confounded—oh, Lordy!—this pain and lameness? Let me have one of Benson's Capcine. That's the real article, is it? with the word CAPCINE cut in the body of the plaster."

"You'll be around in a week, staight and strong," added the diplomatic druggist, throwing the money in his cash drawer.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: **Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION,** and demand the use of a remedy that acts directly on the Liver. As a Liver medicine **TUTT'S PILLS** have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "**scavengers of the system,**" producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. **TUTT'S PILLS** cause no nausea or griping nor interfere with daily work and are a perfect

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet, or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

THE NEXT SPEAKERSHIP.

The Louisville *Courier-Journal* to-day publishes an interview with Hon. John G. Carlisle, in which that gentleman is quoted as saying "he was still a candidate for Senator, just as he always has been." That he knew nothing of Mr. Blackburn's intention to decline to enter the race for the Speakership until he saw the same in a newspaper. That he does not yet know Mr. Blackburn's intention respecting his vote and influence for the Speakership, except that he is opposed to Randall. Regarding Randall, Mr. Carlisle said: "Whilst he is somewhat crafty within the tents of the party organization, he is still politically honorable, and too good a Democrat to think of seeking the Speakership at the hazard of party interests." Carlisle expressed the belief that Randall would not permit his name to go before the caucus, "for, as he knows, he will suffer defeat." Closing, Carlisle said: "It requires 99 votes to nominate in caucus. I already have many more pledged than any other candidate, and nearly enough to insure the nomination. I think it very probable I will receive the honor of being the next Speaker."

GIVES IT UP.

Last night Judge Hoadley left Cincinnati for Philadelphia to place himself under the treatment of Dr. Bartholow, formerly his family physician. He is laboring, not only under malarial trouble, but under severe, if not serious, nervous prostration, growing out of his arduous labors in his campaign and the anxiety incident to it. There is no definite time fixed for his sojourn in Philadelphia. That will depend upon the order of Dr. Bartholow. Judge Hoadley is the candidate for Governor of Ohio on the Democratic side, and is taking the best way to create an excuse for his inevitable defeat.

A correspondent at Amsterdam says it is believed 100,000 persons perished in North Bantam in the recent calamity. It is also believed the garrison and fort at Anger were swept away. An extensive plain of volcanic stone was formed in the sea near Lamporg, Sumatra, preventing communication with Telokbelong and southern Java.

Escaped From Prison—Death of a Pioneer—The Corean Embassy—Golden Gate Fair—Suicide.

SAN FRANCISCO, September 3.

Dr. Chalfant, who shot and killed Dr. Bacon of Boston, the traveling agent of the Goodyear Rubber Company, on April 14, 1879, escaped from the San Quentin prison, yesterday. Chalfant was condemned to ten years imprisonment, and had already served nearly three and a half. His escape was effected by a lady visitor, who, it is supposed, succeeded in bringing him a bundle of clothes, which he put on and quietly walked out, and was not recognized by the guards. His friends were working hard for his pardon, with good prospects of success. The prison Warden offers $50 reward for his capture.

Thomas Davenport, a California pioneer, and for the last 15 years bookkeeper at the Bank of California, died at his residence in Alameda yesterday, aged 72.

The steamer Arabic, from Hong Kong, arrived, yesterday, having on board the Corean embassy and suite, en route to Washington. They are the first of their race ever seen on this continent.

The Golden Gate Fair opens at the Oakland Trotting Park to-day, and continues all the week. Some of the fastest horses in the State have been entered for the races.

W. A. Gordon, an old and respected citizen of Santa Paula, by placing himself on a keg of giant powder, was blown to atoms, pieces of his body being scattered all over. A brother from the East arrived a few hours after the occurrence. Temporary insanity is assigned as the cause.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

The Senate Sub-Committee.

WASHINGTON, September 3.

The Senate sub-committee on labor and education resumed its session to-day, with only Senators Blair and Cole present; Senators George and Pugh having gone to New England to pursue the investigation there. Dr. Norvin Green took the stand again, and in regard to the Wheatstone operators, said the Western Union Company engaged and brought out these operators at a salary of £300 per year; all these operators are still in their employ, and their salaries had in no case been reduced. In regard to the pay of railroad operators, the witness said such operators paid ten per cent. on the business, in addition to the salary from the railroad company. Senator Blair asked whether the Western Union Company, considering the extent of its lines and profits, if higher wages could not be paid its employes.

The witness replied that the employes were paid as well as any other class, considering the hours of labor and service rendered, excepting the public school teachers of this city.

Senator Blair—Now, Doctor, to be plain in the matter, can't your company do something in the way of improving the condition of your employes?

Dr. Green—Corporations are organized to make money, and there are but few that I know that exist *probono publico*.

In reply to a question as to whether it would not be wise for corporations to provide for employes rendering long and continued service, the witness said it was contrary to the genius of American institutions, but thought the matter worthy of consideration.

A Puff for Villard.

LAFAYETTE, September 2.

Secretary Teller arrived this evening and will go on with the party to Montana. The praise of President Villard is in everybody's mouth, as it has been necessary for him to be here to secure the execution of the plans, to the satisfaction of all. To show his decision of character, a well authenticated anecdote is told of him regarding the recent raid by the boys on North Pacific stock. When Oregon Transcontinental touched 56 and its friends became alarmed, a broker rushed into his office and said, "Mr. Villard, Oregon Transcontinental has struck 56." "Has it?" said Mr. Villard, "then buy me a thousand shares."

His Lordship Gets a Tumble.

CHICAGO, September 3.

It is reported that Lord Hedley, who accompanied the Hatch excursion to the Yellowstone, went into the wilderderness in search of game, accompanied by two experienced hunters, and sustained injuries by slipping down a precipice while pursuing game. A party was sent out and brought his Lordship to the hotel last night. His injuries, though painful, are not serious.

Catholics in Council.

Body Found.

WASHINGTON, September 3.

The Navy Department is in receipt of a letter from San Eranelsco, stating that the body of a man, supposed to be that of Master Putnam, of the ship Rogers, was found at Cape Prince of Wales, Alaska, by the natives, when the ice broke up in August 1882.

TELEGRAPHIC BREVITIES.

—Two new cases of yellow fever at Pensacola.

—It is thought that John C. New, Assistant Treasurer of the United States, will soon resign.

—El Paso, Texas, also wants the Slade and Mitchell fight near there, and have sent a man to solicit for it.

—A Berlin passenger train, in passing through Staglitz, ran into a crowd of people yesterday and killed and wounded forty.

—A home for the destitute children of New York city, near Prince's Bay, with accommodations for 2,000 boys, was dedicated by coadjutor Archbishop Carrigan to-day.

—It was rumored at Plymouth that the Atlantic Company's steamer, Amerique, which sailed from Havre yesterday for New York, foundered. The Amerique passed Lizzard Point all right last night.

FOREIGN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE.]

Deprived of Their Homes.

DUBLIN, September 3.

At a mass meeting held on Sunday, at Cappalors, Michael Davitt delivered an address, stating that by the tyrannical operations of landlordism in Ireland, 6,000 householders have been deprived of their homes within the quarter ending the first of July. Davitt contended that the question of the complete abolition of landlordism must be kept before the people. The Land Act, he stated, if not a failure at the present time, is rapidly becoming so, and not but one-sixth of the tenant farmers of the country have yet succeeded in having their rents fixed. He urged the people to be resolute and calm, and not lose their self-control.

European Alliances.

ROME, September 3.

The papers here are discussing Italy's foreign policy, especially in connection with the renewed Austria-German alliance. The *Opinion* says: The conditions of the tripartite alliance remains as heretofore. Italy, while abstaining from furnishing a pretext for irritation, must display great patience and good temper, and at the same time hold herself prepared to fight, or to use her influence to promote peace or retard the catastrophe of war.

DeChambord's Funeral.

LONDON, September 2.

At the services in the chapel at Trohrsdorf to-day the Count of Paris did not take precedence of Count De Chambord's nearest relation, declaring he would not dispute the wishes of the Count's widow under her own roof. A *Times* special says: The Countess DeChambord wishes the funeral of the Count to have a private character, whereas, if the Count of Paris took the first place, it would have the character of a public monarchical demonstration.

Cannot Serve Two Masters.

MADRID, September 3.

A royal order issued by General Martinez Campos, minister of war, in relation to the recent insurrection in Spain was gazetted to-day. It provides that any officer or sergeant who is a member of a republican, military or any other secret society, shall be dismissed from the service and criminally prosecuted.

Conquered Annam.

LONDON, September 3.

A dispatch from Hongkong states that the French General Bouott has demanded of the War Department a reinforcement of 5,000 men. The country is still suffering from floods. The French Admiral has issued a notice declaring all the ports of Annam, including Saigon, in a state of blockade.

He Won't Have It.

PARIS, September 3.

Leading Royalists have urged the Count of Paris to go to Goritz, promising that the place to which he is entitled will be given him, but the Count persistently refused. The Paris newspapers regard this as consummating the rupture between the Orleanists and Legitimists.

Fenianism in Glasgow.

GLASGOW, September 3.

The nine Irishmen arrested here, charged with being connected with the attempt to destroy property with dynamite, are known to the police as Fenians, and have been under surveillance for several months.

Judge Lynch on the Bench.

FLORENCE, A. T., September 3.

Len Redfield and Joe Tuttle, the Riverside stage robbers were hung here this morning. The act was precipitated by the arrival of Deputy United States Marshal W. J. Evans and posse, with a writ from Judge Pinney to take Redfield to Phœnix. There seems to be danger of trouble from cow-boys to-night.

Mr. Wilsey of Sierra Valley was in town yesterday with butter, which, after supplying the Golden Eagle Hotel, was sold to A. Lindley & Co. Mr. W. says the heaviest wind he ever experienced in the Valley prevailed there last Friday.

Glad to Know It.

The GAZETTE has learned from a reliable source that the Carson *Appeal* told the truth about that melon patch at the State Prison.

MORE MYSTERIES

Prehistoric Pictures on the Rocks at Verdi.

SIMILAR MARKS AT SODA SPRINGS, CAL.

Who Made Them and What do They Mean?

On Saturday a GAZETTE reporter hunted up some rocks covered with writing or pictures, of which he had been informed by L. T. Heath, some time ago. The rocks lie half a mile northeast of the Verdi station, and directly opposite the Truckee Lumber Company's office. The largest one is within a couple rods of the river. It is eight feet long, five and a half across and fully five feet thick. It is of a dark reddish or dirty brown color and very heavy. It is of lava formation, probably, and has been worn smooth by water. All around lie similar rocks, together with large and small bowlders of pure granite. The rock spoken of has an oblong hole about two inches by four and 16 inches deep at the left end, which has been chipped out before the lines were drawn, as it seems to be the starting point for the whole scheme of the artist. The rock lies with a broad, smooth top face, at an angle towards the south, and its top and the side are

COVERED WITH LINES AND MARKS

That convey to the present generation no intelligence whatever. A line half an inch wide starts at the hole on left and bending downward forms a sort of border for the letter until it reaches midway of the rock when it suddenly turns up and mingles with the hieroglyphics above. Two or three similar marks cross on top of the stone and one runs across the north side losing itself inside a coating of hard, dry moss that seems as old as the stone itself. From the line at the bottom hangs a few scallopy looking marks that may be part of the picture or it may be a fringe or ornament. The figures are not those of any animal, bird or reptile, but seem to be made up of all known forms and are connected by wavy snake like lines. Something that might be taken for a dog with a round and characterless head at each end looking towards you occupies a prominent place near the lower line. The features are all plain enough. A deer's head is joined to a mixed up patchwork that has something that may have been meant for four legs beneath it. Bird claws show up in two or three places but no bird is near them. Snaky figures run promiscuously through the whole thing. A circle at the right end has spokes joining at the center and running out and losing themselves in the maze outside. The whole thing is a crazy looking mess of stuff that may have meant something once but if it did it must have taken some time to learn the art of reading it.

SIMILAR MARKS

Cover a whole side of the creek's bank, where the north fork of the American has washed a smooth ledge bare for many feet in height and length, at Soda Springs, 11 miles from the summit, on the C. P. R. R. Near the big rock are two less than half the size, which have been used as canvas by the ancient artists. The larger of these two has less than half as much as the one described, and the least has less than half what the other has. In fact, one scroll, a foot across, is all it bears. A small hole in the upper right hand corner furnishes its start also, and all its lines are run at tangents and angles, making a double-ended kind of an arrangement of many headed arrows, pointing three ways. A snail-like scroll lies between the two arms, but does not touch them. Below are blotches, as if the artist tried his tools. This region has been roamed over by the Washoes from a remote period, but none of them know anything of the origin of the works. One who has gray hair, and as many wrinkles as hairs, who is bent with age, toothless and almost blind, and who is said to be a hundred years old, was led to the spot, and said he saw them a heap long time ago, when he was only a few Summers old, and they looked just as they do now.

NEITHER TRADITION NOR MEMORY

Seems to shed any light on the subject. Mr. Lovejoy, a well-known newspaper man in his day, took up the ranche where the rocks lie in 1854, and Mrs. Lovejoy says they found the rocks in exactly the same condition in which they are to-day. Judge Heath has known them since 1868, and he says the same. They are no doubt of great age. They are very peculiar in many respects, and the rock is wonderfully adapted to the purpose. Wherever the surface is broken the color changes to gray, and no amount of weather seems to turn it back. These lines are so shallow that the dent is scarcely perceptible to the touch, and yet the marks can be seen as plain as day, just as far as the rock can be distinguished from its fellows. Whoever drew them was too smart to waste any time on the granite bowlders scattered about, or if he did cut them, time has long since removed every trace of his work. No one can look at these relics of a remote past without having his mind filled with conjecture as to the intelligence which dictated them, and the objects that were sought. Were they messages of peace or war? May they not be the commandments sent to some benighted nation through their brown-skinned Moses? Or were they simply guides' marks to show the way to good hunting or fishing to wandering bands of hunters. It will hardly be claimed that anyone took the pains to carry out so tedious and laborious a job as it must have been, with poor tools and no advantages, for the fun of the thing. Whoever did the work had a motive, but who can guess what it was?

Mr. James T. Swartz, late of Montana Territory, made us a call to-day, and informs us that he, as general assignor for the celebrated Centennial Gate, has made arrangements for the speedy and general introduction of that valuable invention to the farmers and stockmen of our State. He sets forth the description of it, and we know it will be read with interest by every farmer and stockman in the State, for it certainly describes an article long looked for and much sought after, but heretofore never placed within the reach of everyone needing such articles. This gate can be built from two to twenty feet wide or high. There is no swaying down about it; is firm and substantial. There is no post holes to dig, no posts to rot off or lean over; it can be opened by any person, either from the ground, in a buggy, from the top of a load of hay, or in a wagon or on horseback, without stopping the team or horse or letting go of the bridle reins or drive lines. There are no hinges about it to sway, no castings to break; it unlocks itself when opened, and locks itself when closed, securely. Anyone can operate it. No snow-drift of two feet in in depth will trouble its operation in the least. Richard Brown of Elko, Nevada, is acting as general agent for the State, and will supply the gates or sell single farm or county rights.

False Pretences.

A. Beard, who has been a compositor in the GAZETTE office for two years past, left Reno last Friday week, leaving several creditors behind to mourn his loss. He started out with two horses and a wagon, headed north. When a few miles from town, his team ran away, and dumped his household effects into the road. No one has been heard to express a regret at the unfortunate print's bad luck. One of the pretenses under which he beguiled the unsuspicious was that this office owed him back wages. It may be said, once for all, that any such excuses are false, no matter who makes them. This office pays its printers in preference to any other creditors, and never asks them to wait for wages beyond a reasonable hour after the work is done.

The Hilarious Hoodlum.

The Lyon county *Times* complains that a lot of beer-drinking Dayton hoodlums have been making the nights hideous by getting on a "booze" and singing vulgar songs on the street; all of which is certainly reprehensible, and it further shows that the peace officers of that place are either hard of hearing, or else they have a very imperfect conception of their duties. Such a gang would last about a minute in this place, for there is no town in the State where the festive and hilarious youth is looked after more closely, than by Constable Nash, and his deputies.

Almost a Fire.

Yesterday smoke was discovered issuing from an unoccupied building in the rear of McFarlin's blacksmith shop, which was found to come from the burning of an old pulu mattrass, which had probably become ignited by a cigarette stub, as a drunken squaw was seen to leave the premises soon after the discovery of the fire, rendering this theory quite probable. It was a close call for that whole side of the town, as the wind was blowing a stiff breeze at the time.

Cattle Thieves Arrested.

The *Silver State* says that a note from Lewis says that times are very lively in that burg at present. Some 16 or 18 persons have been arrested for stealing cattle from Old-man Crum. It appears that he suspected over a year ago that his cattle were being stolen, and he employed a detective to work up the case. The result is the arrest of a large number of persons, among whom are the Meager boys, formerly of Unionville.

Invalid mothers, weak children, nervous and fretful infants are benefited by using Brown's Iron Bitters. Harmless but efficacious.

The Austin "Reveille" on Kissing.

There is nothing backward about the girls of Battle Mountain. They enjoy kissing and are proud of the stylish way they go about the work. They expect a clinging kiss—a kiss that lasts about three seconds. They do not object to having the pleasant job repeated at intervals during the visit of the fortunate young man.

RYE HAY.

Two Tons to the Acre Without Irrigation.

The Sierra Vallen *Leader* of August 31st says: We believe that this grain is one of the most promising crops that has been raised in this valley. Thomas West, who lives three miles from Loyalton, close to the base of the mountains, raised this year on red gravel land that did not even grow sagebrush, two tons of rye hay to the acre, without irrigation. He says: "If rye will do this on this barren, unpromising land, what will it do on good land and in localities where it can have an even chance with other crops?" The success of those who last Spring sowed rye, opens a vast area for profitable cultivation that has been heretofore considered worthless. There is an abundance of good pasturage all around the valley on the hills, that will be utilized by dairymen, if they can raise rye hay enough on the dry lands to Winter their cows, and the experiments of this year seem to prove almost beyond a doubt that this can be done. We hope to see a largely increased acreage of this grain next season. The hay is said to be of a superior quality.

A New Question.

The Carson *Tribune* of Saturday evening says: Ah Loy, a Chinaman living near Dayton, yesterday applied to the State Land Office for the purchase of 50 acres of land in Lyon county. Surveyor-General Preble to-day refused the application, as he is not certain that the law contemplates the purchase of land from the State by Chinamen. Trenmor Coffin is attorney for the Mongolian, and is confident that the law gives his client the right which he claims. The question will be taken to the Supreme Court at an early day. This is something new in Nevada, and General Preble's desire is to have the matter settled, so that he will know exactly what to do in the future.

Horses Stolen.

John A. Weldon, who lives three miles from Reno on the Steamboat Springs road, had four horses stolen from his corral last night. Mr. Weldon, this morning, got an Indian who is a good tracker and started in pursuit of the thieves, who started south. These are probably the two young fellows who last Wednesday night attempted to get away with six horses from the pasture of J. J. Alexander on the Gates place, but were overtaken and the horses recovered.

Afraid of Fatal Results.

The editor of the *Times-Review* is fearful that some one will be poisoned by his prairie chicken; he says: We sincerely hope that no fatal effects will result to the person who abstracted a prairie chicken from this office last evening, as it had been liberally impregnated with arsenic for the consumption of a squad of amatory felines, who have nightly haunted these premises for the last two weeks.

Lavish Hospitality.

The lavish hospitality of the Pacific Coast Knights is a matter of surprise to their eastern brethren, As in addition to the $40,000 subscribed by the public for the Conclave, California commanderies have spent $130,000 out of their own pockets in entertaining their visitors, while the De Witt Commandery of Virginia put up the snug little sum of $10,000 for the same purpose.

The White Plains Well.

The artesian well at White Plains has attained a depth of 1,500 feet, and Mr. Chapin, the superintendent, has been instructed by the Central Pacific Company to continue sinking for another 1,000 feet, or until water is obtained. Mr. C. thinks further sinking can be done with but little trouble, as he is through the gravel formation, which has given him so much trouble.

An Evident Injustice.

Information recently received by the Rev. A. F. White, formerly of Carson, who is in correspondence with the Rev. Mr. Shaw, acting Consul at Monterey, shows that the attack on that gentleman was made by a Mexican, whose sole object was robbery. The Mayor and officers of Monterey used every effort to apprehend the villain.

An Intolerable Nuisance.

An effort is being made to rid the neighborhood of the den known as the Big Tree saloon, on the north side of the track, which is kept by a dissolute woman and frequented by the very worst class in the town. The near proximity of this vile den to the residences of respectable people renders it necessary for something to be done at once.

Still Pays Dividends.

The Richmond paid a quarterly dividend of $1 25 per share, or $67,500, at London August 10th, says the Eureka *Sentinel*. This makes nearly $4,000,000 given to stockholders in the form of dividends since the organization of this company.

The School for Girls.

Bishop Whitaker informs a GAZETTE reporter that the School for Girls opens with more scholars than ever before. Everything indicates a prosperous and profitable year.

Paid Into The Treasury.

The following were the amounts paid into the county treasury of this county by the several county officers for the month of August, 1883, being the lightest for two and a half years. County Recorder, $143 75; Sheriff, $134 15; Assessor, $105 12; Clerk, $91 15; Total, 472 17; all of which was for fees of the several offices named.

Quit Work.

Nine or ten of the stone masons at Wadsworth struck the other day just after the pay car passed. The reason given was that the job was so nearly finished that only three or four days work was left and they thought they would have to wait two months for their pay, and so they quit.

A Change.

The first train under the new management, went out on the N. & O. R. R. this morning; McNelley, engineer and Mulrooney, conductor, Well Fargo's agent, postal agent, baggage master and brakeman. This train will make close connection with the C. P. and V. & T. passenger trains.

RANCH FOR SALE.

A RARE CHANCE
—FOR A—
LARGE INVESTMENT.

One Hundred and Six Thousand Acres.

THE WELL-KNOWN AND VALUABLE

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE!

4,000 Head of Graded Cattle.

84 Head American Horses, including 50 Fine American Brood Mares 6,000 Acres Fine Meadow Land, Capable of Producing

5,000 TONS of HAY per ANNUM

240 ACRES IN ALFALFA, WELL IRrigated, producing five tons per Acre. 28,000 acres under fence.

MOWERS, REAPERS, FARMING IMPLEMENTS.

With all the appliances of a stock and grain farm to be included in the sale.

The Whole Ranch Comprising One Hundred and Six Thousand Acres.

CONTROLLING TWO HUNDRED AND FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR, as it is sometimes known, "The Iron Point Stock and Grain Ranch," Nevada, embracing one hundred and six thousand acres of land, is now offered for sale upon terms which represent a liberal concession to the purchaser, and offers high inducements in the way of a safe, permanent and profitable investment.

With this ranch will be sold four thousand head of stock cattle, now in splendid condition, embracing thoroughbred Durham bulls, purchased at a cost of six hundred dollars each. The entire herd is composed of grades produced by crossing the best American cows with the very best thoroughbred Durham bulls ever imported to this country. There are no inferior animals in the herd; no Spanish cattle or crosses from Spanish cattle. These ranches embrace six thousand acres of meadow land, which will produce about five thousand tons of hay per annum. There are two hundred and forty acres of fine alfalfa under irrigation, capable of producing twelve hundred and fifty tons of hay per annum. Twenty-eight thousand acres of this ranch is now under fence, redwood posts set sixteen feet apart, with four barbed wires, nearly new. Buildings attached to the ranch consist of one good one story and a half house, with four rooms, a stone cellar, and stone dairy house, well built. Horse barn forty by one hundred feet, with stalls for thirty horses. There is a splendid creek of living water running through the ranch; also, an excellent well of water with two or three springs. Inside the inclosure there are two springs from which issue about twenty-five hundred inches of water, sufficient to irrigate twenty-five hundred acres of land which lie below them, and which may be subjected to irrigation at but little cost. Included in this sale there are two thousand acres of fine agricultural and meadow land, about seven miles northeast of the ranch buildings, upon which there are one hundred and twenty acres in alfalfa finely growing. This is a fine grain ranch, and will produce forty to fifty bushels of barley per acre per annum. There is a good orchard in bearing, and a live stream of water affording abundance of trout. About four hundred acres of this small ranch is under fence. The vendors of these ranches own and control the water rights indispensable to the use of two hundred and fifty thousand acres of land for grazing. There is sufficient water to irrigate twenty-four thousand acres in the lower ranch, and one thousand in the upper, making a total of thirty-four hundred acres.

The sale will include eighty-four head of good American horses, fifty of which are large fine brood mares, the remainder being saddle horses, well trained for herding cattle and well broken work horses; also, there will be included in this sale, grain headers, eight mowing machines, harrows and all farming implements necessary to run this ranch.

Six years ago this ranch maintained throughout the year about forty thousand head of cattle. The range was injured by being overstocked, and the stock was sold, the owner of this ranch selling twelve thousand head. After a rest of six years the range was recuperated and is now as good as when in its primitive condition. The four thousand head of cattle now offered for sale are the progeny of well-selected cows from the best dairy herds in California and Nevada. They have increased to their present numbers very rapidly. Eight hundred calves will be produced in 1883, and estimating upon the basis of the past experience of increase the band of 1884 will exceed that number by one-half. The range is capable of supporting, without being overstocked, twenty-five thousand head, and the present herd may be increased to that number without seeking other range than that now proposed to be sold.

The Clover Valley ranges embrace: Township 36 north, ranges 41, 42, 43, 44, east; township 37 north, ranges 42, 43, 44 east; township 38 north, ranges 42, 43 east; township 39 north, range 43 east—Mount Diablo meridian.

Title based upon patents from the United States will be given to one hundred and six thousand acres of land, commanding about one hundred fifty thousand additional acres, to which the ownership of the land now offered for sale is a perfect key. The present value of the property is estimated to be worth four hundred and twenty-eight thousand dollars. The whole is offered for three hundred thousand dollars, of which one hundred and seventy-five thousand dollars must be paid in cash, one hundred and twenty-five thousand dollars in five years. Deferred payments to bear seven per cent. interest per annum.

The cattle and horses will be sold by actual count. If the herd fall short of four thousand head of cattle, or eighty-four head of horses, a pro rata amount for the shortage will be deducted from the total purchase price.

Reference is had to ALVARO EVANS, capitalist, of Reno, and R. L. FULTON, RENO GAZETTE, Reno, for verification of there presentation set forth above. Inspection of the stock, lands and other property is solicited.

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

AYER'S
Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me."

HORACE FAIRBROTHER."
Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."
159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. A. J. CRANE."
Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDEN."
Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. E. BRAGDON."
Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.
